Neurofunction Rehab will not be liable for other workshop registrant costs incurred in the event of a cancellation.

## **Instructor Bios**

### **Amit Kumar, Occupational Therapist BOT, MA (Sociology), C/NDT**

Amit has been practicing occupational therapy for over 16 years. He has extensive experience in providing community based occupational therapy to clients with brain injuries and orthopaedic conditions. Amit has had a variety of international experiences which include establishment of two occupational therapy departments. He has worked extensively with clients with brain injuries and orthopaedic conditions in various countries including Canada, Ireland, Kuwait, and India. This has prepared him to work with a diversity of cultures in the Greater Vancouver area. Amit's past occupational therapy experience includes work in neurology, orthopaedics, eldercare, wheelchair and seating prescription, vocational rehabilitation, and chronic pain management.

Amit is certified in Neuro Developmental Therapy from NDTA, USA; and trained in Dementia Care Mapping (DCM) from the University of Bradford, UK. He is also trained in seating and complex postural management from the UK. Amit has successfully completed International Yoga Teachers Training course (100 hours) from India, and is able to combine this knowledge with occupational therapy to holistically treat clients suffering pain and illness.

Amit is a certified PGAP provider. Amit has always been a respected member of the industry, and enjoys mentoring. He has made presentations in international conferences, and is well experienced in conducting workshops for clients, caregivers, and health care professionals. Amit has served as a member of the Canadian Association of Occupational Therapists - British Columbia (CAOT-BC) Advisory Committee. Amit currently serves as a member of Professional Advisory Committee of Stroke Recovery Association of British Columbia.

### **Kim Hall, Physiotherapist BScPT**

Kim graduated with a BScPT from Queen's University in 2005. After establishing her career at Vancouver Coastal Health and gaining extensive experience in acute care, orthopaedics and neurological recovery, Kim decided to help people who needed rehabilitation the most due to their limited mobility. She now leads Physio2U, a team of physiotherapists, who specializes in providing in home physiotherapy to people with impaired mobility. Many of the clients are stroke survivors. Kim's teaching experience includes mentoring internationally trained physiotherapists at the University of British Columbia, lecturing at numerous colleges for Rehabilitation Assistant's courses, and leading workshops at the Annual BCRPA Fitness Conference. Kim is an active member of the Physiotherapy Association of British Columbia (PABC) and the Leadership Division of the Canadian Physiotherapy Association.
