Cancellation policy:

Refunds will be honored until April 2, 2018 (\$25 administration fee will be deducted). Cancellations made after April 3, 2018 are not eligible for a refund, however, a registrant can transfer workshop registration to an alternate person. Neurofunction Rehab reserves the right to cancel this workshop. In this unlikely event, either a full refund of workshop fees will be issued or the registrant can choose to transfer their registration to another scheduled course. Neurofunction Rehab will not be liable for other workshop registrant costs incurred in the event of a cancellation.

Instructor Bios

Amit Kumar, Occupational Therapist BOT, MA (Sociology), C/NDT

Amit has been practicing occupational therapy for over 20 years. He has extensive experience in providing community based occupational therapy to clients with brain injuries and orthopaedic conditions. Amit has had a variety of international experiences which include establishment of two occupational therapy departments. He has worked extensively with clients with brain injuries and orthopaedic conditions in various countries including Canada, Ireland, Kuwait, and India.

Amit is certified in Neuro Developmental Therapy from NDTA, USA; and trained in Dementia Care Mapping (DCM) from the University of Bradford, UK. He is also trained in seating and complex postural management from the UK. Amit holds a certificate in Integrated Disability Management from University of Fredericton. Amit has successfully completed International Yoga Teachers Training course (100 hours) from India, and is able to combine this knowledge with occupational therapy to holistically treat clients suffering pain and illness. Amit is also a certified PGAP provider.

Amit has always been a respected member of the industry, and enjoys mentoring. He has made presentations in international conferences, and is well experienced in conducting workshops for clients, caregivers, and health care professionals. Amit has served as a member of the Canadian Association of Occupational Therapists - British Columbia (CAOT-BC) Advisory Committee. Amit currently serves as a member of Professional Advisory Committee of Stroke Recovery Association of British Columbia.

As the founder-director of Life skills Therapy, Amit is responsible for strategic planning and operational management.

Veronika Vlckova, Physiotherapist MSc PT, BSc PT

Veronika is a Registered Physiotherapist in BC, and a member of the Physiotherapy Association of BC and the Canadian Physiotherapy Association. She graduated in 2012 with a Master of Science in Rehabilitation Sciences and Physiotherapy in Leuven, Belgium, with a major in adults with neurological disorders. Since graduating she gained experience working with the neurological population in the community and clinic setting, and treating clients with a variety of acute conditions in the hospital setting.

Through her clinical and work experience she has developed a passion working with clients with neurological conditions such as stroke, multiple sclerosis, Parkinson's disease, and spinal cord injury.

While developing her career in BC, Veronika has taken post graduate professional courses in the Bobath concept and advanced NDT, specifically aimed at the treatment of neurological impairments. She has also completed a course on the management of post-concussion syndrome, K-Taping, and will be attending a course in vestibular rehabilitation in January, 2018. As she believes in the principle of continuing education in the ever-evolving domain of physiotherapy, additional advanced courses will be pursued regularly in the future.

She believes in utilizing a holistic and individualized treatment approach, facilitating the return of clients to meaningful and functional activities.

In her spare time she enjoys the outdoors, traveling, hiking up the beautiful local mountains of BC, and fitness.

Sheila Wang, Occupational Therapist BSc, MSc OT

Sheila graduated from University of British Columbia with a Bachelor of Science degree in Biology, and completed a Master in Occupational Therapy in 2014 at University of Alberta. Sheila's clinical experience includes administering cognitive, physical, and functional assessments, and providing interventions with adults and seniors in rehab, community, and acute hospital settings. Sheila is especially interested in neurological rehabilitation and enjoys working with all age groups. She believes in the importance of utilizing client-centered approach to help clients engaged in meaningful occupations and promoting clients to become active participants in maintaining own health. Sheila is a certified BrainFx administrator and a certified PGAP provider. Sheila also speaks fluent Mandarin and Taiwanese Hokkien.
